

# CAD Web View Map

Requires Microsoft Silverlight

Updates on a 60 second timer

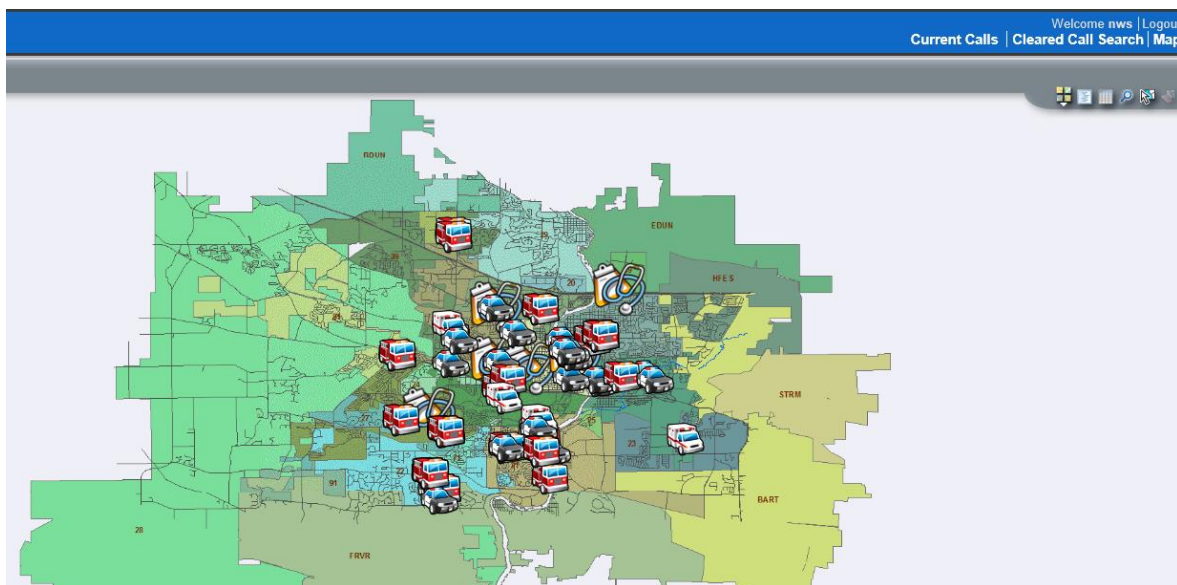

Only one view of the map will update (typically the map labeled New World Base Map). The other map views are for reference and will not update.

Accessed from a link on the blue title bar

The default view of the map loads at full extent.

Both units and call icons are displayed based on user permissions.

Unit Icons:

Police Unit

Fire Unit

EMS Unit

Call Icons:

Police only call type

Fire only call type

Medical only call type

Multiple Agency call type

## Map Controls

Use the zoom control to zoom in and out

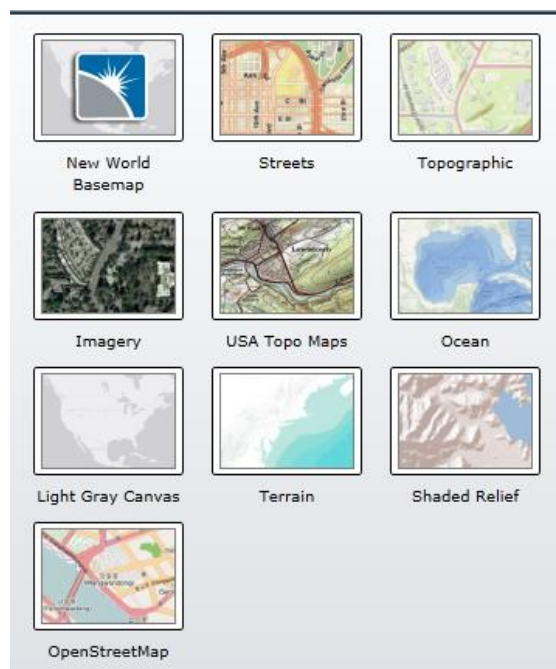

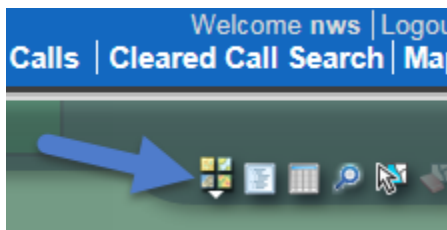

You can also use the roller on you mouse to control zoom

Left-Click and drag to pan the map

## Available Map Views

Click on this icon  to open a menu of map views

The New World Basemap is your agency's GIS data and is typically the map that updates.

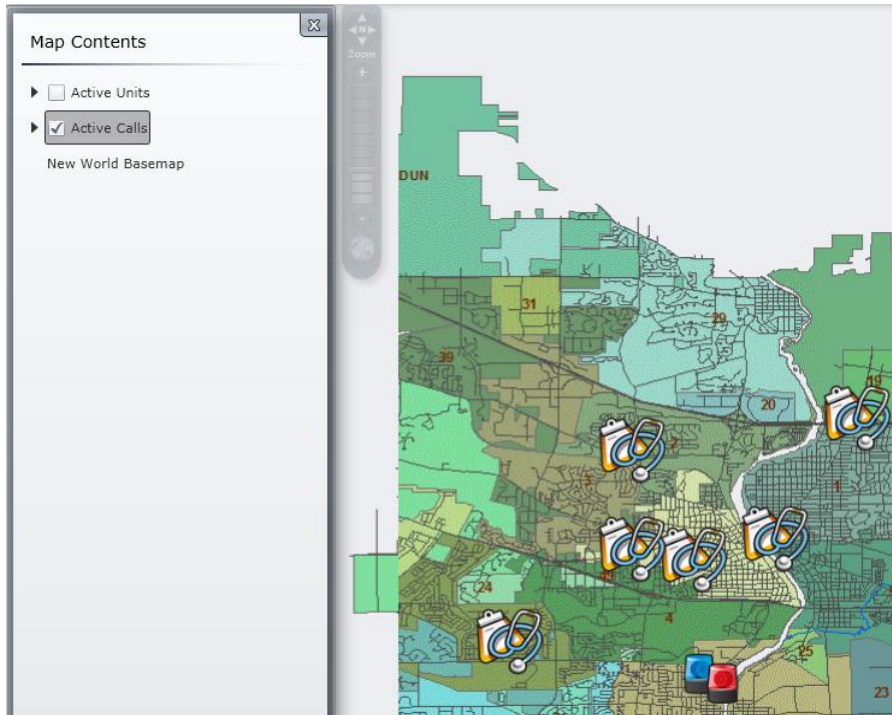

The other maps are internet maps published by ESRI. These are for reference, but will not update units and calls once selected.

Map Contents  and Attribute Table 

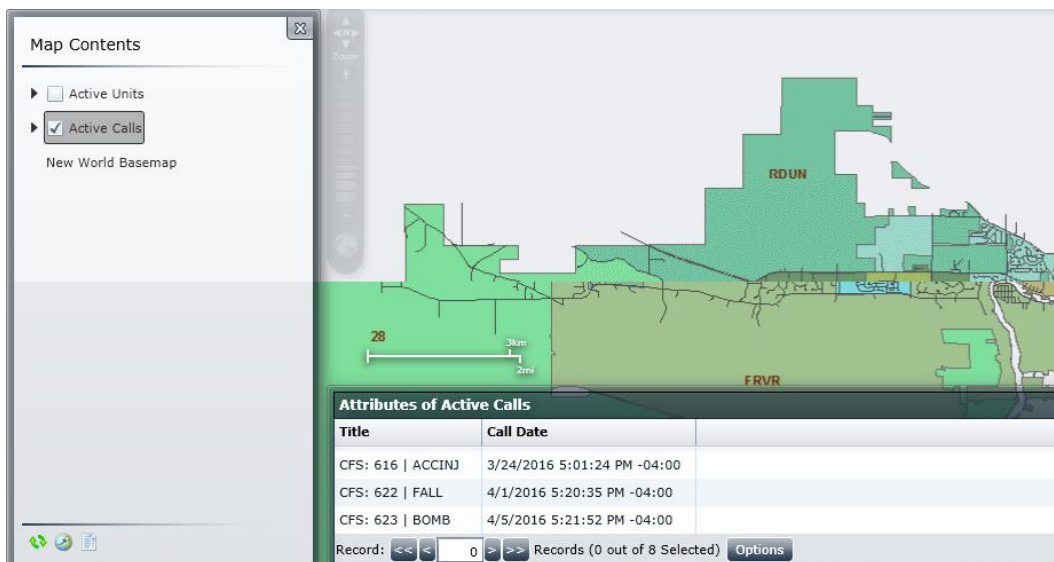

Use the Map Contents button to open a selection pane that allows the user to filter the map attributes based on units or calls.

In this example, Active Units is unchecked so that only active calls display

Click on the Attribute Table button in combination with the Map Contents

With the Active Calls option highlighted as seen in this example, the Attribute table shows the Active Call list

Click on the options button and select “Auto Zoom to Selected”

The screenshot shows a table titled "Attributes of Active Calls" with two columns: "Title" and "Call Date". The table contains three rows of data. Below the table, there is a "Record:" section with navigation buttons and a text input showing "5". To the right, a "Switch Selection" dialog box is open, showing a checked option for "Auto Zoom to Selected".

Title	Call Date
CFS: 616   ACCINJ	3/24/2016 5:01:24 PM -04:00
CFS: 622   FALL	4/1/2016 5:20:35 PM -04:00
CFS: 623   BOMB	4/5/2016 5:21:52 PM -04:00

Record: << < 5 > >> Records (1 out of 8 Selected)

Switch Selection

☒ Auto Zoom to Selected

With this option set, clicking on a row in the Attributes grid will zoom the map to that selection

The screenshot shows a map of a residential area with various streets labeled. A red pin is placed on the map, indicating a location. Below the map, the "Attributes of Active Calls" table is visible, with the row for "CFS: 623 | BOMB" highlighted in blue. The "Record:" section shows "8" and the "Options" button is visible.

Title	Call Date
CFS: 616   ACCINJ	3/24/2016 5:01:24 PM -04:00
CFS: 622   FALL	4/1/2016 5:20:35 PM -04:00
CFS: 623   BOMB	4/5/2016 5:21:52 PM -04:00

Record: << < 8 > >> Records (1 out of 8 Selected) Options

Click on the search icon  to open a Search pane

The screenshot shows a search pane with a title bar "Search" and a close button. Below the title bar is a search input field with a magnifying glass icon. Underneath the input field are three tabs: "Places", "ArcGIS", and "The Web".

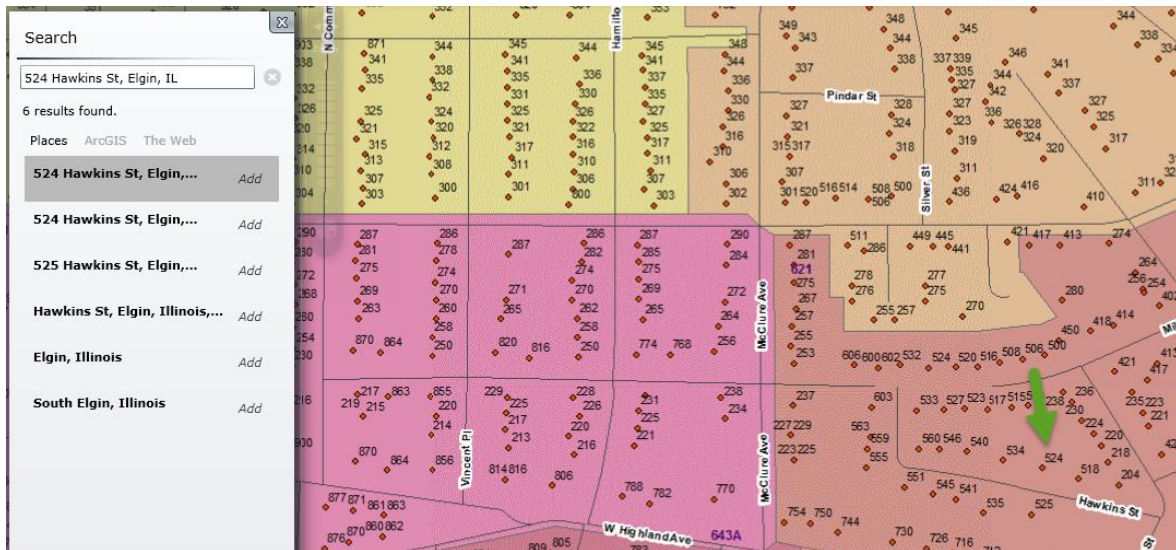

Search

Places ArcGIS The Web

Only the “Places” search will return results. The search behaves like a google search. Enter a street name, city and state abbreviation to return results:

Here is an example using house number, street name, city and state:

The map will pan to the selected search result

Switch to one of the internet maps to search outside of your agency's defined map area:
